Professional Summary

Results-driven Full Stack Developer skilled in Java (OOPs, exception handling), React.js, JavaScript, HTML, CSS, Bootstrap. Developed a Bank Management System in Java showcasing strong backend concepts. Built Omni Kart, an e-commerce web app using HTML, CSS, and Bootstrap with responsive design. Created and deployed FoodieeHub, a React-based e-commerce platform hosted on AWS. Strong in problem-solving, UI/UX design, and building scalable, end-to-end web solutions.

Education

Sasi Junior College - Tanuku

Intermediate

2019 - 2021

- CGPA : 8.5

Sri Vasavi Engineering College - Tadepalligudem

B.Tech in Computer Science & Engineering(Artificial Intelligence)

2021 - 2025

- CGPA: 8.05

Projects

FoodieeHub - Ract.js,Redux,Axios,AWS,Axios

- Developed a React-based food e-commerce app with category pages (Veg, Non-Veg, Drinks, Milk, Chocolate).
- Integrated REST APIs using Axios for dynamic data handling (products, cart, orders, authentication)
- Implemented Redux state management for centralized cart, order, and user session handling.
- Built a responsive UI with modular routing, dropdown menus, and real-time cart badge updates.
- Deployed on AWS for scalability and real-world deployment experience.

Delta Store - Spring MVC, Thymeleaf, MySQL

- Implemented CRUD operations for products with image upload support and persistent storage in MYSQL.
- Integrated search functionality, flash messages, and form validations for smooth user interaction.
- Designed responsive (Home, Add Product, About, Contact) with a clean and modern layout.

Currency Converter - Spring Boot + Feign + Eureka + Resilience4j

- A microservices-based currency conversion system with Currency Exchange and Conversion services.
- Integrated Feign Client for inter-service communication, Eureka for service discovery, and Resilience4j.
- Circuit Breaker for fault tolerance. Data stored in MySQL with RESTful endpoints for real-time conversion.

Technologies & Certifications

Programming Languages: JavaScript (ES6+) , HTML5, CSS3, Java

Frameworks and Libraries: React.js, Bootstrap ,Redux,spring(Rest Api's,Mvc,Microservices,security)

Tools and Platforms:Git, GitHub, Netlify, VS Code, Chrome DevTools, NPM, AWS,Docker, Jenkins

Data Bases: Mysql

Certifications: Java Full Stack, AWS, Prompt Engineering
